“Mirae Asset’s corporate philosophy and core values were defined at the time of its founding. At first, I considered traditional company values such as faith or sincerity. However, I wanted Mirae Asset to stand out from its competitors. That’s why I chose phrases such as ‘open mind’ and ‘embracing the future’. I hope Mirae Asset can become a company of talented people who are responsive to changes.

I sincerely hope that these excellent people will grow and inherit the founding philosophy of Mirae Asset and compete in the global market with great confidence.”
